

Activity 1: please complete activities from the Phonics booklet.

Activity 2: this week, we have been naming and describing 2D shapes (with a focus on squares and rectangles). Colour in the pictures using the correct colour for each 2D shape!

Activity 3: In R.E. we are talking about places which are special to different people. Bring in an image of your own special place (photos and drawings are both fine).

A special place does not have to be religious (although it can be if you like), could be

either indoor or outdoor, a large place such as a beach/park, or a small place such as underneath the bed. Annotate/talk about what makes this place so special as we will be sharing these in our R.E. lesson on Thursday!
